Projects

8 Weeks

Flight Booking & Reservation System (Full Stack)

- Built a scalable airline booking platform with interactive seat selection, dynamic pricing, secure payment integration, and PDF itinerary generation.
- Developed responsive UI using React and implemented backend APIs with Spring Boot.
- Integrated Stripe payment workflows and managed the complete booking lifecycle.

6 Weeks

Blog Platform (Angular & Spring Boot)

- Developed a role-based blog platform with user authentication, CRUD operations, and content search.
- Implemented admin functionality to manage posts and comments.
- Used Angular, Spring Boot, and MySQL.

4 Weeks

Self-Driving Car Simulation (2D)

- Created a browser-based autonomous driving simulation using JavaScript and neural network logic.

4 Weeks

Hand Gesture Input System

- Designed a computer vision-based input system using OpenCV and MediaPipe to map hand gestures to keyboard inputs.

COURSES & CERTIFICATIONS

- IIT-M Pravartak Certified Full Stack Development with AI Tools - Guvi (2025)
- Full Stack Web Development Bootcamp - Udemy (2025)
- 100 Days of Code: Python Bootcamp - Udemy (2024)
- Java Full Stack Development - Edubridge (2023)
- Database Foundations - Oracle (2022)
